APPRECIATION FOR DONATION OF AN AVIARY NET TO UGANDA WILDLIFE CONSERVATION EDUCATION CENTRE

I bring you warm greetings from Uganda Wildlife Conservation Education Centre (UWEC).

UWEC is acknowledging receipt of a donation of an aviary net for the highly endangered Shoebill Stock in Uganda. The aviary net is going to be used for our birds as we seek to improve the quality of animal care, conservation education services and domestic tourism for all Ugandans with emphasis on the young generation.

The donated net is going to help us reduce congestion in the current net as we are going to separate the birds.

We look forward to along worthwhile relationship with your organization.

Yours faithfully,

James Musinguzi

EXECUTIVE DIRECTOR
